Maybe there's something from home where it's not working(?). Just tried again and got the same error. So you can see whether this is worth updating for the 9 dams.

- 8/20 – Sent preliminary draft of permit to Ecology for initial review pre-401 cert request.
- 8/21, 8/22 – Met with USACE and visited Lower Monumental, The Dalles, and Bonneville Lock and Dam facilities. Discussed permits, proposed effluent limits, monitoring, and outfalls.

I see other have successfully accessed the file today. Seems to be working for me. I'm sharing and sending the link to see if that helps. If not, I can enter your updates. Thanks.
